VAUGHAN'S LAWN GRASS MIXTURES

A FLORIST selling Vaughan's Lawn Grass Mixtures is assured that there are no better grades sold at their respective prices. Vaughan's Chicago Parks, Central Park and Columbian Mixtures are the highest grade possible to make. There is no brand so well or favorably known, and our extensive advertising make Vaughan's Lawn Grass Seed a sure and ready seller.

Grass seed is high again this year, due to the drought the past season. We purchased early from the cream of the American crops, and our representative whom we had in Europe all of last fall bought the best European grasses, samples absolutely impossible to duplicate at this time. An equal quality mixture cannot be sold for less money.

Vaughan's Chicago Parks Lawn Seed can also be had in 10 and 20 lb. lots.

Price except where noted, each 50c; doz., \$5.00. 100, \$30.00.

Crystal Gem. Is an early white of special merit. In considering its good qualities, we believe it is the best white to follow Smith's Advance. Large in size, a good clear white, artistic in form, good stem and foliage and is ready to cut October 15th. In growth it resembles Comoleta (from which it is a seedling) only somewhat taller. Best bud—August 15th.

Dragon Vert. The "king supreme" of the red and gold section; enormous in size, very regular and full in arrangement of petals; stiff-stemmed and a fine grower. The peer of any exhibition sort.

Fatouma. An enormous globular flower of rosy-amber color, full, and of fine stately build; very smooth in finish. A very strong entry for the "any other color" class, as all the tones are pleasing.

Golden Queen. The same shade of yellow as Golden Glow, maturing October 1 to 10. In many ways superior to Chrysolora (from which it is a seedling) is ten days earlier, of fine incurved form and fully double from either early or late buds. Will make fine specimen plants for early exhibition or market use. Six inches in diameter, 3½ ft. high, with good stem and foliage.

Marigold. Is the most phenomenal yellow ever offered. Brighter in color than Golden Wedding, equal to that of Golden Age or Golden Robin, fully up to Exhibition size, 9 inches in diameter. Maturing October 15th, with intensity of color unsurpassed, stem and foliage perfect, are the qualities which will make this a peer among the mid-October flowering. Height 5 ft. from early May planting. Buds secured from August 20 to 25 give best blooms. Those interested in Exhibitions occurring late in October should not overlook this variety as it is admirably adapted for this purpose. There is no yellow that can equal it in color, size, stem and foliage, shown collectively with long stems or singularly in collections.

Modello. All who have seen this variety are most favorably impressed with its striking color and character. The color closely approaches Orange—possibly Golden Bronze or Golden Amber would be more correct. In form it is like a huge Decorative Dahlia. Is sure to please the flower-buying public—4 ft. high maturing the first week of November. Buds selected the first week of September give best blooms. Easy of propagation and requires no special culture to insure success. The fact that September buds produce perfectly double flowers, should make this variety one of the very best for either large or medium Specimen plants and its striking color will materially add to its effectiveness.

Petite Marcel. This variety belongs to the "Rayonate" section, with a spread like a dinner-plate, each series of petals shorter toward the center. Color, rosy-mauve; a wonder for collections; straight, thread-like petals.

Romance. A magnificent incurved white, with a luster-like mother-o'-pearl, but snow-white; each petal claw-shaped, and long enough to make a deep, very large bloom; 4½ ft. high, with strong stem.

VAUGHAN'S CANNAS

OUR EXPERIENCE WITH CANNAS

Our Canna fields at Western Springs when in bloom during August and September make a grand showing and present a wonderful blaze of color. They attract thousands of visitors, both professionals and amateurs. Last year we grew over ten acres of standard sorts and novelties, besides 1,000 seedlings. Canna culture is one of our main specialties now as it has been for thirty years.

Our Cannas have won important prizes wherever exhibited—(Three Grand Gold Medals), Chicago, Omaha, Buffalo and St. Louis.

We ought to know something about Cannas, and realize that many so-called novelties are being sent out every year whose only claim for existence in many instances is a new name only. We had to pay dearly in discovering that ignorant and unscrupulous growers give almost any name to their stock of Cannas, as long as the color is somewhere near correct. To them any red is a "New Chicago," any yellow a "Florence Vaughan," etc.

Our Cannas are true to name, and furthermore, the stock we use for propagation has been specially selected on points of vigor, true type, color, size of flowers.

In our list of sorts will be found all the good old standard kinds, and many of the best novelties, the inferior varieties being discarded every year as the merits of the newer ones are proven.

Vaughan's Firebird

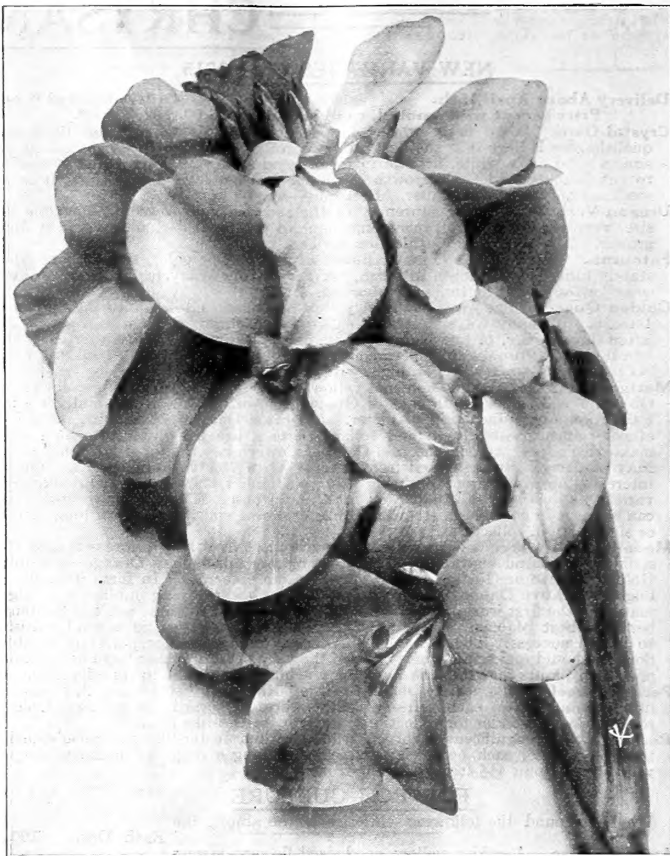

This is by all means the **very best red-flowered, green-leaved Canna today.**

The flowers are borne in immense trusses, on strong stalks well above the leaves. They are of splendid form, round and shapely. The petals measure $2\frac{1}{2}$ inches and over across. The color is a clear glistening scarlet without any streaks, spots or blotches.

We have seen and tested many varieties during the thirty years we have devoted to their culture and have seen none that can approach it.

This variety was distributed by us last year and has been tested the past season by a number of the leading growers who pronounced it the "best red Canna" to date. As shown by the constant "waiting orders" placed with us in advance this winter, it will continue in great demand this season.

KING HUMBERT

The Best Bronze-Leaved Canna of Today

This remarkable Gold Medal Canna has been the prize winner for many years. Of all the wonderful flowering and foliage plants introduced, this one takes the lead for size, color, and habit. It is a cross between the Orchid flowering and the French, or Crozy type, combining the best features of both, the large flowers of one with the free-blooming character of the others, 4½ feet in height.

Its giant flowers, orange scarlet in color, the very broad, rubber-like bronze leaves, altogether make up a plant so distinctively in advance of any other bronze-leaved Canna that the demand for it is universal.

PARSIFAL

An excellent example of the Cactus type

DAHLIAS

In the following list we offer what we consider the very best of the foreign and American Dahlias, which we observed in our extensive trials last season. The greater part we can supply both in dry roots and small plants, but some of the rarer sorts we furnish in green plants only.

While roots may generally be planted by April 15th, it is hardly wise to set out the growing plants until May 10th to 15th.

Prices on Dahlias are for growing plants from 2½ inch pots ready April 15th. Note list of varieties we can supply in field roots.

Contrary to popular opinion, we maintain that Dahlia plants are always superior to dry roots, and are willing to take the responsibility of recommending them.

Chicago White was 10 days earlier than any of the others and it is a good white; Niagara is beautiful, Kunderd Glory is tall with very heavy spikes and we like it; Augusta we found the greatest bloomer of all, W. NEW and NEWEST ROSE Plants for 1915 Mostly GRAFTED

The cream of the new roses, grafted on English Manetti

George Elger
Yellow
Polyantha
(New 1915)

Our Mr. Vaughan selected this in 1913 in France as the most striking New Polyantha and its behavior since proves it a great addition to the useful Polyantha class. A real **GOLDEN YELLOW** rose, could be called a Yellow Cecil Brunner. Flowers very freely and is a good doer. Get it for pot plant work and a splendid rose for small garden beds.

Own Root, 2½ inch, each, 20c; doz., \$2.00; 100, \$15.00, 4 inch, each, 25c; doz. \$2.50; 100, \$20.00. **Grafted plants**, each 40c, doz. \$3.50, per 100, \$25.00.

Hoosier
Beauty
(New, 1915)

This is the sensational Red Ross for 1915 among the florists of America. Its advance sale at **Big Prices**, among largest commercial growers who have given it full investigation, justifies us in offering it to you. It is **very fragrant**, with more petals, a firmer bud and flower, and a stiffer, better stem than Richmond. We often talk of velvet texture, the Hoosier Beauty has it right. We have well-worked grafted stock.

Grafted plants, 2½ inch, each, 50c; doz., \$5.00; per 100, \$35.00.

Russell
Mrs. Chas.
The Money
Maker

One of the largest Rose Concerns in America substituted this in one-third of their American Beauty Benches, proving their opinion of its popular demand value. It meant over ten thousand dollars to them. The bud is nearly as large as Beauty but longer and pointed and opens into an elegant large rose. The color is a strong, rosy-red—deepening near the center and with never a sign of the light purple tint into which Beauty fades. Everywhere Retail buyers are praising it. You must put in Russell both for your local and shipping trade.

Grafted plants only, each, 2½ inch, 25c; doz., \$2.50; per 100, \$15.00. 4 inch, in May, each, 30c; doz., \$3.00; per 100, \$18.00.

Hadley
(Crimson)

Hadley has grown in favor the past season; it is well worth using in any Rose establishment. Good judges compare it favorably with Hoosier Beauty, since it is sold at about half the price of the latter. Already proven to be an all-the-year-round forcer. A deep velvety crimson, a good grower with long stiff stems. Very fragrant.

Price, Grafted plants, 2½ inch, 30c; doz., \$3.00; per 100, \$20.00. 4 in., 35c; doz., \$3.50; per 100, \$25.00. **Own Root**, 2½ inch, 25c; doz., \$2.50; per 100, \$15.00.

Killarney
Brilliant

It has the same habit of growing and the same freedom of bloom as its parent, while the flower is twice as large, having 25 to 40 full sized petals. The color is a brilliant pink, in bright weather it is almost crimson and does not fade in dull weather.

Price, Grafted plants, 2½ inch, 30c; doz., \$2.25; per 100, \$18.00. 4 inch, 35c; doz., \$3.00; per 100, \$20.00. **Own Root**, 2½ inch, 20c; doz., \$1.50; per 100, \$12.00.

Ophelia
The New
Color

Color, clear bright salmon, often deepening toward golden pink; wonderfully fragrant, with long pointed buds and stiff stems. Large, handsome foliage showing that it is a wonderfully free bloomer and grower and not prone to mildew. Growth free and continuous and does splendidly, both on own root and grafted; a rose with a reputation and one that will be grown for many years.

POLYANTHAS AND BABY RAMBLERS

It has been our good fortune to be in the lead in introducing Baby Ramblers to the American public. Years ago we first offered the Crimson Baby Rambler and followed that by Vaughan's White Baby Rambler. What a wonderful success these have been commercially every one knows. Other choice varieties of this class will be found in the following list.

MADAME JULES GOUCHAULT (Dwarf Polyanthus). A superb variety with wood and foliage clear green. Blooms in large erect panicles of from 25 to 30 flowers, keeping very long. Buds bright vermilion red, tinted orange, turning

to bright pink, and clear pink at the full bloom. Awarded a Silver-Gilt Medal by the R. H. S., London; and another Medal at the International Exhibition. Will be much appreciated for masses, pot culture and for forcing.

CECILE BRUNNER (Dwf. Polyanthus.) There is no doubt about the present popularity of this grand rose. It has a color that is both distinct and beautiful, and its profusion of blossoms, and long-flowering period all serve to make it a perfect rose for beds and borders. The buds at first appear rose pink, shading to salmon and orange in the center, toning off to pale flesh when fully open.

Our Shrubs are Nursery-grown and are transplanted every two or three years. They are nice shapely bushes with plenty of good fibrous roots, and are such plants as are in demand by the first-class retail trade. They should not be compared to stock that is never moved from the cutting or seedling beds until sold.

Our Nursery is located at Western Springs, 15 miles west of Chicago on the C. B. & Q. R. R., two blocks south of 47th Street, on the continuation of East Boulevard.

Visitors are invited to inspect our stock at any time. We have a choice lot of specimens such as are not usually seen. Our customers will be pleased with the class of stock we send them.

Specimens.—This term is applied to plants that are perfect in height and diameter as well as shape, and are recommended for immediate effect.

Where personal selection of any stock is made by customers at our Nursery we always charge according to its value.

"The plants received in due time and in first class condition; I am well pleased with the whole, and you will get my order next fall."

GLADIOLI FOR FLORISTS

Our Gladioli fields are managed for producing first-class bulbs. We plant none for cut-flower purposes and the limited number of blooms which we sell are cut with sufficiently short stems to leave ample foliage on the growing plant, without which it does not mature as strong and healthy a bulb. Our stock of bulbs grown as above will force under glass and will also give strong and healthy flower spikes, blooming early when planted early on favorably located ground.

MRS. FRANCIS KING

LEADING DECORATIVE GLADIOLUS FOR THE TRADE

This has become the most popular and effective variety for window, store and hotel decorations. The long, strong flower stalks with foliage, its effective flower spike with a good line of reserve buds continually opening, with flower 1½ inches across five to six flowers well spread out on the spike at the same time, its brilliant vermilion scarlet color gives for vases, in hotel lobbies and dining rooms, parlor decorations, etc., an effect not produced in any other Gladiolus. Price, First size, per 100, \$1.25; per 1,000, \$10.00. Second size, per 100, 90c; per 1,000, \$8.00.

HYDE PARK

VERY EARLY BLOOMER

A new hybrid of the Gandavenis type, a cross between May and the old favorite Shakespeare. The flowers have the same fine open shape and large size as Shakespeare, with the same exquisite coloring in the three upper petals—a frosty, sparkling white, penciled and feathered with light and dark rose—but the lower petals are much more distinctly blotched with cream—which is an added charm. The foliage is clean and healthy, remaining deep green until frost. It is a very early bloomer, making it of special value in the cut-flower market, as it comes in at a time when there is very little competition from other varieties; an ideal variety for Florist use. Received certificate of merit from American Institute of New York City. Price, First size, per doz., \$1.00; per 100, \$6.50; 1,000, \$60.00.

CHICAGO WHITE

CHICAGO WHITE

THE EARLIEST WHITE

The flowers are well expanded, well placed upon the stalk, pure white with faint lavender streaks in the lower petals. They are borne on tall, straight stems and from five to seven flowers are open at one time. It is one of the earliest varieties to bloom.

We gave this a very effective try-out the past season among some of the most important forcers of bulbs for cut flowers in and about Chicago. The results have been very satisfactory and there is a fixed demand for this variety for early use, both in doors and out of doors. A notable feature is the fact that many of these bulbs grown and sold by us produce two flower spikes. Price, First size, per 100, \$3.50; per 1,000, \$30.00. Second size, per 100, \$3.00; per 1,000, \$25.00.

AMERICA

The finest pink Gladiolus yet introduced, being especially valuable to florists, both for sale as a cut-flower or use in design work; of strong healthy growth, spikes average from 2 to 3 feet long, individual flowers are large, open and spreading, all facing one way, color being delicate lavender pink—might be called a tinted white. An easy forcer and a money maker for the florist. Price, First size, per 100, \$1.50; per 1,000, \$12.00. Second size, per 100, \$1.25; per 1,000, \$10.00.

AUGUSTA

The best Florists' White Gladiolus. Should be planted liberally by all. Strong, healthy, long spikes of flowers, color being pure white with blue anthers. We are headquarters for this variety, having a splendid stock of large healthy bulbs. Price, First size, per 100, \$1.50; per 1,000, \$12.00. Second size, per 100, \$1.25; per 1,000, \$10.00.

PRINCEPS

Popular beyond every other variety, both in this country and throughout Europe. It has made a class for itself, and you do not have the best until you buy it. Individual flowers are 5½ inches in diameter and sometimes one inch larger, color being a brilliant scarlet crimson with three broad white blotches on the lower petals. Price, First size, per doz., 50c; per 100, \$3.50; per 1,000, \$30.00.

RUFFLED "GLORY"

NEW TYPE OF GLADIOLUS WITH "RUFFLED" PETALS

The broadly expanded, wide open, paired flowers, all face in the same direction and are carried on straight, stout stalks, fully 3½ feet. From three to eight of these handsome flowers are open at one time. Each petal is exquisitely ruffled and fluted. (See Illustration).

The color is a delicate pink, with a most attractive crimson stripe in the center of each lower petal, the shade of which is unique in Gladioli. The ruffling of the petals in this new strain has attracted much attention the country over. Price, First size, per 100, \$5.00; per 1,000, \$45.00.

NIAGARA

In type the variety resembles "America," but the flowers appear to be somewhat larger, measuring 4½ inches across. In color the flowers are a delightful cream shade with the two lower inside petals or segments blending to canary yellow. The throat is splashed with carmine, and the lower ends of the outside petals are also blushed with carmine. The anthers are purple and the stigma pale carmine, this little addition in the coloring relieving the creamy effect of the petals. The flower spike is very erect and stout and is wrapped with broad, dark green foliage. Price, First size, per doz., 75c; per 100, \$4.50; per 1,000, \$40.00.

RUFFLED "GLORY"

PANAMA

A new seedling of America which resembles the parent variety in every way except that it is a much deeper pink. A grand variety which evokes words of praise wherever exhibited. Spike very long with flowers large and well arranged. Price, First size, per doz., \$1.00; per 100, \$7.50; per 1,000, \$70.00.

Vaughan's Flower Seeds

AGERATUM—Blue Perfection

The Best Flower Seeds in America.—We have made this claim for years and judging from our ever increasing business we have made good, and our constant endeavor will be to maintain the position we hold in the Flower Seed business. We have been especially fortunate, considering the war conditions prevailing in Europe, in having a travelling buyer in French, Dutch and Belgian Seed, Bulb and Plant districts since the beginning of the war in August, and later in English and Scotch Grass Seed districts. We have therefore secured the best stocks from the best samples offered at original sources, under the most favorable market conditions.

Our list contains all the best novelties that we know to be worthy of cultivation and that are improvements on the older kinds, or entirely new varieties, as well as all the standard sorts.

Flower Seed for Summer Sowing.—Cinerarias, Primulas, etc., also Perennials. We issue a special circular in June. Should you fail to receive one, please write for it, as we have some very desirable novelties to offer.

For seeds of perennials and biennials, see page 43. Trade packets contain considerable more seed than ordinary or retail packets, being based on Florists' needs for ordinary purposes.

Florists invariably get trade packets unless otherwise specified. Quantities of 1/4-lb. and over are charged at the pound rates; 1/4-lb. at the oz. rate; 1/2-oz. at the oz. rate, but only when the price per oz. is 40c or more, and is not otherwise quoted.

We do not sell 1/2-oz. where the price per oz. is 15c or less. **Cash Discount.**—On orders over \$2.00 for Flower Seeds, if the cash is enclosed, 10 per cent. This discount does not apply to Asparagus Seed. Cash discount on this is 2 per cent.

Vaughan's ASTER SEED for Florists

We begin this list with Dwarfest kinds and follow with those of increasing height to the Tallest.

Asters must not be planted in freshly manured soil nor in soil that has been planted with Asters for two or three years previous. Unslacked lime or fresh wood ashes are beneficial if stirred in the soil a little before the planting.

I have got the finest Asters I ever saw, grown from your seed.

M. A. NOTT, Gardener for Sam'l Russell, Jr., Esq., Middletown, Conn.

I have always been very successful with your aster seeds. I had a very small space in my back yard last summer and sold nearly \$33.00 worth of flowers. Many who tried to raise Asters last summer, lost all their plants during the extreme hot weather, but my flowers were beautiful.

Mrs. J. J. ESTERLEY, Kansas City, Mo.

Crimson Giant. This shade has been one which has seemed to lack intensity of color, but in this variety the blood red blossom is particularly bright and the extreme doubleness of its flowers make a bed of them a mass of oriental splendor in a garden.	.25	2.00
Enchantress Pink. This is the same color as the well known Carnation. It is a midseason variety and the form of flower while loose, is compact. The inner petals are broad and fold in perfect circles, each petal overlapping. The outer petals gradually lose this trait until they stand out straight from the center.	.25	2.50
Pink Beauty. Upright and sturdy growth, stems twenty inches long. Petals of flowers are incurved and a charming pink.	.35	3.50

VAUGHAN'S INTERNATIONAL PANSIES

Vaughan's International Pansy Mixture was first offered by us in 1889. We import from all the best European sources, and personally inspect the fields of French and German specialists. Each year has added to the quality of its flowers and variety of its colors. We buy every year novelties of known merit to improve the mixture; it is always complete, always the latest and always the best mixture. We add to all Pansy Mixtures which we now buy more than fifty per cent of the choicest named kinds obtainable, each in correct proportion. This is one of the specialties which has established the reputation of Vaughan's Flower Seeds, and one which we maintain most carefully. **Trade pkt., 50c; 1/8 oz., \$1.50; 1/4 oz., \$5.00 oz., \$10.00.**

The standard is of finest form, decidedly frilled and waved, and terminates beautifully at the throat. Wings large, waved and gracefully cover the keel. The keel is of pure white, is very large and strange to say, adds much to the beauty of the bloom, especially when the flowers are so bunched as to show this handsome well-formed keel. Winter Blooming Spencers

We have growing for us this season from stock seed supplied by us a number of Winter-Blooming Spencer varieties, including the famous Australian variety, "Yarrowa." These are being grown by the most careful Sweet Pea experts who will rogue most scrupulously.

New seed of these will be ready next August and September.

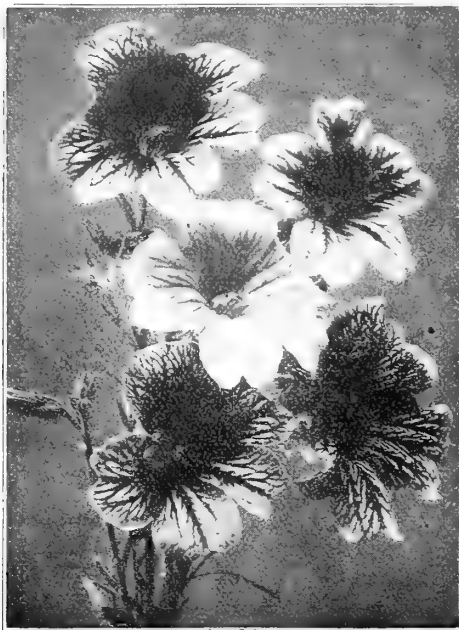

Your seeds are more satisfactory than the Eastern firms, especially the Pansies. I have found none that can equal Vaughan's. MRS. J. F. ROGERS, Sodus, N. Y.

"Your Perennial Phlox last year as grown by me was the best in Denver."
M. P. ARNOLD, Denver, Colo.

BEGONIA, Melaine. The color of this new fibrous-rooted Begonia is quite unique, being white, beautifully edged with pink. Its large flowers profusely produced during the whole summer, will render it invaluable for beds and borders..... **.25**

CAMPANULA Medium Early Blooming. 2 1/2" ☉ Canterbury Bells furnish us a most wonderful array of color in the daintiest shades of the most delicate form. The airy bell shaped blossoms fairly cover the pyramidal bushes. They are biennials and bloom from seed the second year. This early flowering strain blooms three weeks earlier than the older sorts which prolongs the season of bloom.

DELPHINIUM, Pauli, 1 1/2 ft. A new perennial found in East Africa and named after the missionary director Prof. Dr. Paul. The fascinating feature of this is its intense and sweet fragrance, which is lacking in all other sorts. It forms a bushy plant, 1 1/2 ft. high, loosely branched, flowers are double pure white with dark violet-brown stamens and produced on long stiff stems..... **.35**

Hidden Values in Seeds

Some automobile manufacturers boast the hidden values of their cars—values undiscernible to the eye and impossible of laboratory analysis. "Under the hood" is their summary of the situation. In the case of seeds, hidden values far greater in relative proportion, lie dormant beneath the seed coats—values potent and potential, yet not to be reckoned or estimated in the laboratory or without values to be determined only after expending a season's time and labor growing the seed on to its crop maturity, and then what differences are manifest? For the professional the difference between success and failure. Vaughan's Seed Store sells good seeds. We believe and our trials prove that our stocks average with those of any firm in the seed business—cheap prices and inferior seed go invariably together. We own our seeds at right prices and quality considered, our figures will compare favorably with any. For thirty-eight years we have supplied gardeners and florists and the values in Vaughan's seeds are well demonstrated by our constantly growing trade with them.

ASPARAGUS Seed and Roots

BONVALLET'S GIANT

See cut above.

It is acclimated to our soil; it is more vigorous than imported French; and undoubtedly is the best commercial variety on the market.

The shoots are as large as any we have ever seen, they are purplish in color, or when planted deep produce the very finest of all white asparagus. Owing to the excellent quality, sweetness, tenderness and beautiful appearance, this is a highly favored sort. The seed is grown by the originator.

This is a money-maker for the gardener.

VAUGHAN'S SELECT EARLY JERSEY WAKEFIELD

This is the best early cabbage in cultivation. It forms fine solid heads of good size and pointed shape, not many outer leaves. Of the extra early conical shaped head varieties, this is the best in the United States.

We offer an extra fine strain of this seed, grown from selected hard heads. Oz 25c, 2 ozs 45c, ¼ lb 70c, 1 lb \$2.50.

LARGE JERSEY OR CHARLESTON WAKEFIELD

This sort is larger heading, than the Early Jersey Wakefield. It matures a few days later, with larger heads; brings higher prices in the market.

It is popular with Southern planters. Re-selected seed. Oz 25c, 2 ozs 45c, ¼ lb 70c, 1 lb \$2.50.

DUTCH WINTER OR HOLLANDER

HOLLAND GROWN

This cabbage is most universally grown throughout the Wisconsin, Michigan, Illinois and Indiana Cabbage growing districts.

The heads are very solid, but not large, they are the right size and shape to meet the demands of the consuming public. Short stem.

Our strain of this cannot be surpassed; it has produced most successful results in every district. Oz 30c, 2 ozs 55c, ¼ lb 85c, 1 lb \$3.00.

DUTCH WINTER OR HOLLANDER

DANISH GROWN

Vaughan's Private Stock Seed, a strain grown for us from selected seed heads, the best picked from the field. Grown in Denmark exclusively for Vaughan's Seed Store. Oz 40c, 2 Ozs 65c, ¼ lb. \$1.15, 1 lb. \$4.00.

DWARF AMAGER OR SHORT STEMMED

DANISH BALL HEAD

A variety very similar to the Dutch Winter or Hollander. We import the Seed direct from Amager Island, Denmark. Oz 30c, 2 ozs 55c, ¼ lb 85c, 1 lb \$3.00.

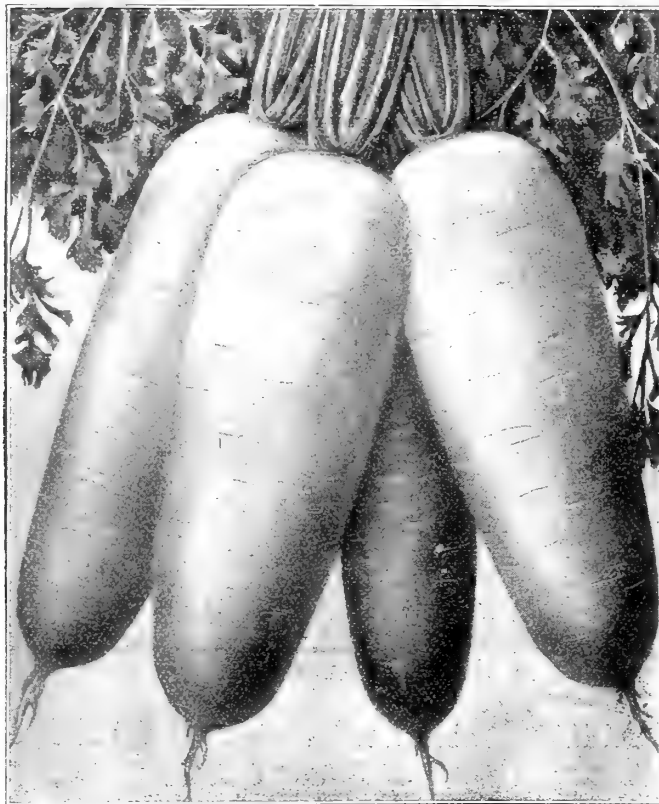

VAUGHAN'S BRIDGEPORT DRUMHEAD

The best large, fall shipping cabbage in existence. Our strain of this cabbage, of which we are the introducers, has been selected by us for twenty years, and the original type has not only been kept up but improved. A field of them is more uniform than any other sort.

Fine for slicing, for Kraut; for general table use it is unsurpassed. Oz 20c, 2 ozs 35c, ¼ lb 50c, 1 lb \$2.00.

Glory of Enkhousen. (New) A round-headed, very solid fine ribbed, best quality early cabbage. We think this about the hardest heading, long keeping, early sort. It might be called a late strain of Second Earlies. Live gardeners should give it a trial. Oz 25c, 2 ozs 45c, ¼ lb 70c, 1 lb \$2.50.

Danish Summer Ball Head. (New) This is the Danish Ball Head of early cabbages. It closely resembles the Winter Ball Head, except that it is smaller and may be brought in with the very early flat head sorts. There is a trace of curliness in its outer leaves and a delicate flavor that suggests Savoy blood. Our market gardeners who have tried this are very enthusiastic. ½ oz 12c, oz. 20c, 2 ozs 35c, ¼ lb 55c, 1 lb \$2.00.

EARLY CHANTENAY

CARROTS

FOUR LBS. TO THE ACRE

For early bunching, gardeners will find Chantenay unsurpassed. For general crops, our Select Danvers; for feeding, Mastodon and Belgians.

Our Carrot Seed is raised by the most careful and experienced growers, who know the importance of selection. The Early Scarlet Forcing is the earliest, followed by Early Short Scarlet, about three inches long; Oxheart, Nantes, and Chantenay follow, these being from four to six inches. Select Danvers is a little longer, and Long Orange the longest of all.

There is an immense superiority in our stocks over the cheaper California grown seed, and it will satisfy the most critical market gardener.

VAUGHAN'S SELECT DANVERS

VAUGHAN'S SELECT DANVERS The Gardener's favorite strain. This has been one of our special strains of seed during our 38 years in business. As a Carrot to fill every general purpose it is unexcelled. Since it has been bred for the greatest yield per acre, it will produce a larger amount of marketable roots than any other kind—due to its ideal shape for producing the largest possible root in a given space. The roots are a rich orange color, 6 to 7 inches long with a blunt point.

VAUGHAN'S NEW SNOWBALL CAULIFLOWER

Vaughan's New Snowball Cauliflower

The best general purpose variety either for Spring or Fall planting.

Vaughan's New Snowball Cauliflower is a specialty of our house. It is on such particular seed as Cauliflower, in which the least variance from the true strain results in great injury to the grower, that a seed house builds up its reputation. We know our Cauliflower is the equal of anything that can be produced. In our trial ground tests we have tried nearly every strain of cauliflower offered on the market and, while we have found a few equals, we have never found a superior to Vaughan's Snowball. We pay more for our seed than probably does any large seed house in the United States just so that we can have it as near perfection as it is possible for man to grow it. High bred Cabbage and Cauliflower does not germinate as well as less carefully bred strains. Nevertheless we have taken such pains to reclean and re-sift our seeds after receiving them from the grower that our seed is always up to standard of growth. Head usually 9 to 10 inches across, perfectly white and very solid, deep and compact.

Vaughan's New Snowball. Pkt., 25c; 1/4 oz., 65c; 1/2 oz., \$1.25; oz., \$2.00; 1/4 lb., \$8.00; lb., \$32.00.

Vaughan's New Snowball Cauliflower is put up in special packages, sealed with our TRADE MARK with distinctive paper and printing, as follows: PACKETS, QUARTER OUNCES, HALF OUNCES, ONE OUNCES.

THE seed of this strain was saved with the greatest care only from perfectly developed heads, which yield but little seed. Good Cauliflower seed is always high in price; cheap Cauliflower is a poor investment, because it cannot be good.

The best seed of this type of Cauliflower comes from Amager Island, near Copenhagen, Denmark. There the winters are mild, causing little loss from rot in the seed heads, and the cool, moist summers give ideal growing conditions for this vegetable.

Available ground is scarce and value high, so intensive culture is necessary.

Vaughan's Snowball is the result of years of careful selection by an experienced and most painstaking gardener, under these conditions.

White Plume, Self-Blanching—Vaughan's Selected Stock

We have not yet found a Celery that is as early and of as good a flavor, as crisp and tender as our selection of this sort. We sell large quantities of this seed to market gardeners, who find it uniformly white and free from green or hollow stalks. It is not a good keeper, but it is excellent for Fall and early Winter use. 1/2 oz., 12c; oz., 20c; 2 oz., 30c; 1/4 lb., 50c; lb., \$2.00. **WHITE PLUME.**—Regular Stock. 1/2 oz., 10c; oz., 15c; 2 oz., 25c; 1/4 lb., 40c; lb., \$1.50.

Golden Self-Blanching—Vaughan's Selected Stock

This is the best Celery for early use. The stalks are much broader and heavier than those of the White Plume, and greatly superior in quality. It is ready for use nearly as early, producing dwarfer and much larger bunches of broad, heavy stalks, blanching to a deep golden yellow. The handsome color, crispness, tenderness, freedom from stringiness, and nutty flavor of this variety make it only necessary to be tried in order to establish it as the standard of excellence as an early sort. 1/2 oz., 65c; oz., \$1.25; 2 oz., \$2.25; 1/4 lb., \$4.00.

GOLDEN SELF-BLANCHING.—Regular Stock. 1/2 oz., 25c; oz., 45c; 1/4 lb., \$1.50; lb \$6.00.

SWEET CORN

Vaughan's
Extra Selected

THE FOUR BEST GARDEN VARIETIES

Mammoth White Cory. One of the largest and best extra early varieties. Each stalk furnishes two or more large fine shaped ears ready days before other large sorts. The ears are 12 rowed, very symmetrical and handsome, with no opening between the rows at the base. The grain is large, broad, very white and of remarkably good quality for such an early sort. The size and beauty of this variety gives it ready sale even when the market is over stocked. Vaughan's Special strain is early and large. $\frac{1}{2}$ Pk 55c, pk \$1.00, bu \$4.00.

Improved Early Champion. The Earliest Large Sweet Corn Produces ears 12 in. long in 60 days. The new variety is without question the earliest large sweet Corn yet introduced, being only a few days later than the first early small sorts. Ears nearly as large as the Mammoth; 12 rowed; pure white kernels, with medium size white cob; very sweet, tender and full of milk; yielding two and three ears to the stalk. The best kind for early and late planting. $\frac{1}{2}$ Pk 55c, pk \$1.00, bu \$4.00.

Stowell's Evergreen. The most popular main crop Sweet Corn. Ears numerous, kernels large, deep white and of fine flavor. A late sort. To supply the right seed of this favorite has been our effort for many years. Seed grown near the Eastern Atlantic Coast has always shown by its flavor and shrivelled, ripened kernels the highest percentage of sugar known. We offer both selected seed from Eastern grown stock and Western grown seed from original Eastern stock. Eastern grown, $\frac{1}{2}$ pk 55c, pk \$1.00, bu \$4.00. Western grown, $\frac{1}{2}$ pk 50c, pk 95c, bu \$3.75.

Country Gentleman. One of the sweetest of all Sweet Corn, and also one of the most productive sorts, the stalks averaging three ears, sometimes as many as five; kernels and cobs are pure white, cob small, kernels deep, ears average nine inches in length. Qt 25c, $\frac{1}{2}$ pk 60c, pk \$1.15, bu \$4.50.

MUSK MELON

Netted Gem—Rocky Ford—Selected Stock

This seed is carefully grown, selected and saved at Rocky Ford under the care and supervision of one of the most careful shippers. It is well known that much seed offered as Rocky Ford stock has been saved by local growers from surplus or cull Melons by men who know nothing of the responsibility such seed business. Careful planters should avoid such stock.

VAUGHAN'S SELECTED STOCK. From best melons in field. Oz., 15c; ¼ lb., 40c; lb., \$1.50.

REGULAR STOCK. Seed from entire field planted only for seed. Oz., 10c; ¼ lb., 20c; lb., 60c.

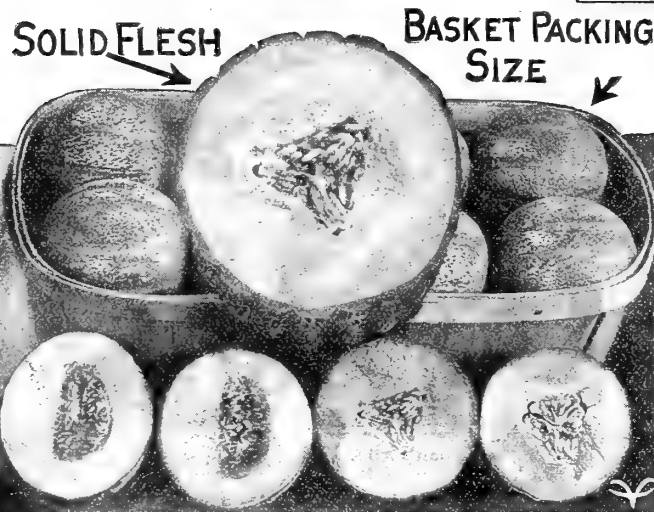

VAUGHAN'S HOODOO MELON. (Introducer, Strain.) As like as peas in a pod. The finest of the Green type of Salmon flushed melons and just right in size to ship and to serve cut in two. Slightly smaller and rounder than a Rocky Ford. Nearly every fruit is of uniform high quality and sweetness.

Select Stock, oz., 20c; ¼ lb., 60c; lb., \$2.00.

Regular Stock, oz., 10c; ¼ lb., 25c; lb., 80c.

THE OSAGE GEM. Early as Netted Gem; same size and shape. Flesh, orange, solid and of best flavor.

Price, oz., 10c; ¼ lb., 30c; lb., \$1.00.

VAUGHAN'S PAUL ROSE or PETOSKEY

The best and most uniformly high quality table Melon introduced in ten years. This is a cross of the Osage with the Netted Gem, and combines the sweetness of the former with the fine netting of the Gem. It has also the firmness of meat, salmon color, and cheesy structure peculiar to the Osage. In this respect it is superior to any Melon in existence, because of this thick, solid flesh, free from stringiness, which does not become watery or "break down" in keeping, retaining its form twice as long as any other shipping Melon.

Regular Stock, oz., 15c; ¼ lb., 25c; lb., 80c.

VAUGHAN'S ORIGINAL OSAGE

This famous Melon is our own introduction, and we take special pride in maintaining the quality and superiority of our stock. We pay many times the prices given ordinary seed growers to get our seed raised in the best locality and then selected from merchantable early Melons. Seed obtained from culls left in the field after marketing is over can be bought cheaply, but is high at any price. However, seed taken from early choice market melons must bring a high price, though really a hundred times cheaper than the other. Salmon flesh, high table quality; during the last season was the best Melon on the Chicago Market. Our strain is dark skinned, but netted.

VAUGHAN'S LIVE MUSHROOM SPAWN

Make Bed in Basement or any Out-Building—Temperature 55° to 65° Fahrenheit

Vaughan's English Mushroom Spawn. Our Spawn is manufactured by the largest and most successful maker of Spawn in the world. He has made Spawn for some thirty years and has kept up on all the new methods of manufacture. Our Spawn is made by the famous tissue method from selected specimens. It has been found that English Spawn, as a rule, does not bear so quickly as the American pure culture, but it, however, lasts longer in bearing.

Price: (Weight per brick, 1¼ lbs.), brick, 15c; 2 bricks, 25c; 8 bricks, \$1.00; 25 lbs., \$2.00; 100 lbs., \$7.00; if shipped from New York \$6.50 per 100 lbs. Special prices on ½ ton lots and upward.

The growing of mushrooms has now become a standard business and there are many successful growers in all parts of the country. Better culture and better spawn are the causes of the change from a speculative to a standard crop. Vaughan's Seed Store has been very successful in supplying both the American Pure Culture and the imported English spawn. We receive monthly shipments of American and six monthly shipments of English spawn from our manufacturers, so our spawn is always fresh.

LAMBERT'S PURE CULTURE SPAWN

Lambert's Pure Culture Spawn. This is made in America from selected Mushrooms grown under cultivation. The bricks are inoculated with tiny threads from a young specimen fruit, so that the special sorts are produced true to type, theoretically, in practice they run nearly true to type. American Spawn is much fresher than English as it is not necessary to dry out the bricks for a long transportation trip.

Order by number. The following now run nearly true to type. The Whites and Cream-Whites are the most popular market sorts.

5. Brown (Bohemia) prolific, grows in clusters.
6. White (Alaska) similar to 9 but with heavier stem.
7. Brown (Bohemia) hardy, good producer, very heavy.
8. Cream-White, hardy, prolific, preferred for summer planting.
9. White (Alaska) a market favorite.
10. Light Brown (Bohemia) heavy, quite fleshy.
11. Cream (Columbia) similar to 8, but larger and slightly darker.
12. Cream (Columbia) large and very fleshy.

Price: Direct Bricks (weight 1¼ lbs. per brick), inoculated from laboratory cultures. Brick, 30c; 5 bricks, \$1.25; 10 bricks, \$2.00; 25 bricks, \$4.25; 100 bricks, \$15.00.

Standard Bricks (weight 1¼ lbs. per brick) inoculated from direct bricks (weight 1¼ lbs. per brick). Brick, 25c; 5 bricks, \$1.00; 10 bricks, \$1.85; 25 bricks, \$3.75; 100 bricks, \$12.00.

WATERMELON

In watermelons for market there has been a considerable change in varieties the past few seasons due to the introduction of the Alabama Sweet and Tom Watson, good shipping varieties of the long type melon, a type long associated with high quality but heretofore too poor shippers. Growers who intend to ship carloads away to market should be careful to find out what their receiving market demands.

Kleckley Sweets. The quality melon for home and local market. Without doubt this is the highest quality melon both as to texture, firm with no stringiness, and sweetness, in which respect it has no equal of all melons on the market today. In shape it is oblong, of good size, skin dark green, flesh bright scarlet, ripening close to the skin. The large heart does not crack open when ripe. Its one fault is that the shell is thin—will not ship without breaking. Oz., 10c; ¼ lb., 20c; lb., 65c; 5 lb., \$3.00.

Alabama Sweets. A popular, rather new, long oblong melon with hard shell, which makes it a good shipper. In color dark green, size large and excellent quality. Especially popular in Texas districts. Select stock. Oz., 8c; ¼ lb., 20c; lb., 60c.

Vaughan's Black Diamond. Its prominent points of merit are its extreme size and productiveness. Melons weighing 75 to 90 pounds are frequent. It is the most prolific Water Melon. Its color is a rich, dark green, almost black. Oz., 7c; ¼ lb., 15c; lb., 50c; 5 lbs., \$2.25.

Sweetheart. A standard shipping melon of the round type. Vine vigorous and productive. The melons are large, uniform and heavy, mottled light and dark green. Oz., 5c; ¼ lb., 15c; lb., 40c; 5 lbs., \$1.85.

Improved Kolb's Gem. The best known shipping melon of the old type. Color, dark with yellow blotch on bottom. Oz., 5c; ¼ lb., 15c; lb., 40c; 5 lbs., \$1.85; 10 lbs., \$3.25.

Triumph. One of the largest and handsomest of the large round shipping melons. Dark green. Oz., 5c; ¼ lb., 15c; lb., 40c.

Winter Water Melon (Novelty). A small round light colored melon of high quality, which can be kept until Christmas. Pkt., 10c; oz., 15c; 2 oz., 25c; ¼ lb., 40c; lb., \$1.25.

New Chilian. Nearly round melon, ours is the early strain. A very fine flavored melon; something different and attractive for local market. Oz., 10c; ¼ lb., 30c; lb., \$1.00.

TOM WATSON

Water Melon Tom Watson. Considered one of the most important introductions of recent years. A variety which has in the last few years become the most popular of all shipping melons. In appearance it resembles somewhat the Kleckley Sweets except that it is much fuller at the ends. Its extreme value is in its shipping qualities. The rind is very thick and growers prefer this variety to Kleckley's or Halbert Honey for shipping to a long distance. The fruits are cylindrical in shape and the rind is a dark green. The flesh is a deep red, very sweet and melting. Oz., 10c; ¼ lb., 20c; lb., 65c; 5 lbs., \$3.00.

COLE'S EARLY

Cole's Early. This is the best Early Water Melon for the home market. For sweetness and delicate texture of flesh it has no equal in the earlys. The rind is thin and brittle, and therefore this variety is not suitable for shipping. We have an extra early strain. Oz., 10c; ¼ lb., 20c; lb., 60c; 5 lbs., \$2.65.

MARTYNIA FOR PICKLES

VAUGHAN'S PEDIGREE ONION SEED

Vaughan's strains of Globe Onions have no superior. Our Eastern seed is grown in the large growing districts, seed bulbs are sorted from hundreds of bushels (an impossibility with small growers) color and shape are ideal when planted and placed far apart, the unavoidable mixtures in close western plantings are eliminated. The greater cost to produce seeds in this manner than those under other conditions is justified; it is worth many times such cost to the market planter.

Southport Red Globe.

Has a beautiful dark red skin; the onions are large size, very solid and firm, making them first sellers and excellent keepers.

Yield—800 to 1,000 bushels per acre is not uncommon with our seed. It is grown under our supervision by a specially equipped expert in this line.

Eastern grown, Oz 20c, ¼ lb 50c, lb \$1.60, 5 lbs \$7.75, 10 lbs \$15.00.

Western grown, Oz 15c, ¼ lb 40c, lb \$1.40, 5 lbs \$6.75, 10 lbs \$13.00.

Seed growers regard it the superfine strain of yellow Onion Seed, Eastern grown, Oz 20c, ¼ lb 50c, 1 lb \$1.60, 5 lbs \$7.75, 10 lbs \$15.00. Western grown, Oz 15c, ¼ lb 40c, lb \$1.40, 5 lbs \$6.75, 10 lbs \$13.50.

Ideal White Globe

Southport Yellow Globe

Vaughan's Ideal White Globe Onion is hand-someness personified; true globe form, pure white, hard, small necked, ripens very early, evenly and is a good keeper. We supply the largest market gardeners in Chicago and the west. Don't plant inferior stock with only low price to recommend it; it is far more expensive than our high class seed.

Eastern grown, Oz 25c, ¼ lb 90c, lb \$3.25, 5 lbs \$15.75, 10 lbs \$30.00.

Western grown seed, Oz 20c, ¼ lb 65c, lb \$2.35, 5 lbs \$11.50, 10 lbs \$22.50.

Eastern grown, Oz 20c, ¼ lb 50c, lb \$1.60, 5 lbs \$7.75, 10 lbs \$15.00.

Western grown, Oz 15c, ¼ lb 40c, lb \$1.40, 5 lbs \$6.75, 10 lbs \$13.00.

PRIZETAKER ONION

Vaughan's Selected Stock.

Handsome and largest yellow Globe Onions. Fair keeper, of finest flavor good shape and enormous size, many weighing five pounds or more each, and raised from seed the first year. Is of the same type as those immense onions (imported) seen in fruit stores. Always commands a high price.

FLAT ONION SET SEED.

This is the standard Red Flat Variety; large; skin, deep purplish red; form, round, somewhat flattened; flesh, purple-white; moderately fine grained, and stronger flavored than any of the other kinds. ONION SETS

Onion sets are subject to market changes, and while we shall try to maintain these prices, we cannot guarantee them to last throughout the season and advise early orders.

These are the product of seed and are used for "Green Onions" or to produce large Onions, which they do much more quickly than can be grown from seed. Our sets are small, dry and unsprouted.

THE CROP

The opening of new pea seed growing sections in the far west has resulted in a liberal supply of seed although there is no great surplus except on varieties for canning purposes. The quality is excellent both in color and germination.

PEAS

NORTHERN GROWN

THE PRICE

Last year we reduced our pea prices and we are pleased that we can make a still further reduction this year. Along with the lower prices here made, we are giving a better sample. The price of seed should deter no gardener this year from planting peas liberally.

EXTRA EARLY TALL SORTS

GRADUS—VAUGHAN'S RE-SELECTED STOCK

Gradus is the best extra early wrinkled pea for the market gardener. It is within three to five days of the first earlies, Alaska Maude S and is pretty nearly twice as large. The pods are so large that they sell for Telephones on the market. The quality is unsurpassed and our stock is always top-notch. Continual reselection is necessary to keep this pea free from small pods and runners. Beware of cheap strains, they cannot be good. Qt. 30c; ½ pk. 90c; pk. \$1.85; bu. \$7.50.

THOMAS LAXTON Similar to Gradus, only pods are blunt shaped instead of pointed or tapering. On the market it does not sell up to Gradus unless known. It is a better yielder however, and in ordinary seasons the pods contain from one to two more peas. Qt., 30c; ½ pk., 90c; pk., \$1.85; bu., \$7.50.

ALASKA This is the standard market extra early. The seed is round and bluish in color, being smooth it does not rot in the ground like a wrinkled pea and hence may be planted very early. In season our Alaska is as early as any other sort except Velocity. Pod 2½ inches long. Uniform and even ripening stock. Qt. 25c; ½ pk. 65c; pk. \$1.35; bu. \$5.00.

VAUGHAN'S SELECT EXTRA EARLY (MAUD S.) The early seeded round peas are generally known as the "extra earlies," and they go by many different names. Vaughan's Maud S strain is a very early, reselected stock, bred especially for uniformity in ripening so that the crop may be harvested at one picking. The pods are 2½ in. long, and the peas are of good quality, superior to Alaska of the same season. Qt. 25c; ½ pk. 65c; pk. \$1.25; bu. \$5.00.

AMEER "A large podded Alaska." A few days later in season than Alaska, The pods are large, trifle smaller than the Telephone and usually sell better on the market than Alaska or Extra Early. The peas are round and green and the quality like Alaska. Qt. 30c; ½ pk. 85c; pk. \$1.65; bu. \$6.50.

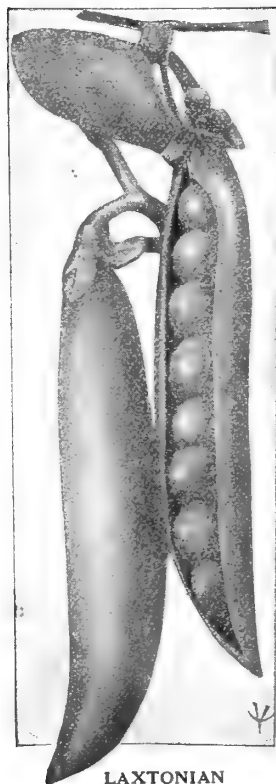

VAUGHAN'S NEW LATE GRADUS This new pea fills in the space which has hitherto existed in the time when Gradus was over and before Telephone came in. A quality pea the equal of Gradus; it has Telephone pods and yields very nearly as well. Qt. 30c; ½ pk. 90c; pk. \$1.75; bu. \$7.00.

MARKET GARDEN DWARF VARIETIES

LAXTONIAN The Dwarf Gradus—a new giant podded, early dwarf pea; almost as early as the popular tall variety Gradus and a better yielder. The pods are large and sell equally as well as Gradus, being of dwarf habit this pea may be grown between other crops and will be out of the way when other crops are just well started. Vaughan's Seed Store introduced this pea in America, and we are headquarters for the right stock. A low priced Laxtonian is usually something else. Qt. 35c; ½ pk. \$1.00; pk. \$2.00; bu. \$8.00.

VAUGHAN'S IMPROVED TELEPHONE

TELEPHONE TYPES

The early season, heavy yield, large pods, and fine flavor of Telephone Peas have placed this variety in the greatest favor for both market and home use. Following are the best selections of this popular sort:

VAUGHAN'S IMPROVED TELEPHONE

Standard high quality has been maintained for this most popular favorite, notwithstanding the unfavorable seasons of the past few years. This excellent sort has exceptional qualities, and is the best main crop. The pods immense in size, fine dark green color, more desirable than the light green of ordinary Telephone, and they are well filled with delicious, sweet peas. Height four feet. Our stock is uniform. Qt. 30c; ½ pk. 75c; pk. \$1.50; bu. \$6.00.

ALDERMAN Best of the Duke of Albany type. Large dark pods. Uniform strain. Qt. 30c; ½ pk. 75c; pk. \$1.50; bu. \$6.00.

TELEPHONE Light green colored pods, less uniform than Improved Telephone. Qt. 30c; ½ pk. 75c; pk. \$1.45; bu. \$5.75.

ADMIRAL DEWEY Similar to Vaughan's Improved Telephone. Large dark pods. Qt. 30c; ½ pk. 75c; pk. \$1.50; bu. \$6.00.

LATE OR MAIN CROP VARIETIES

PARSLEY

The Champion: Is a prize-winning English variety, in appearance like a tuft of finely curled moss, and of a rich deep green color. It is slow to run to seed and very hardy; of easiest growth, a few seeds sown in onion rows use no space. Grows in window boxes. Oz., 10c; ¼ lb., 25c; lb., 75c.

Vaughan's XXX Parsley. An extra selected and dwarf strain of moss curled parsley. It is without question the handsomest garnishing variety to be found. Its size makes it especially desirable for greenhouse and frame use. Oz., 15c; ¼ lb., 40c; lb., \$1.25.

Double Curled. Oz., 10c; ¼ lb., 25c; lb., 75c.

Fern-Leaved. Oz., 10c; ¼ lb., 25c; lb., 75c.

Plain. Oz., 10c; ¼ lb., 25c; lb., 75c.

Hamburg Rooted or **German Parsley.** The root resembles a small parsnip and is the edible part of this sort; extensively used for flavoring soups. Oz., 10c; ¼ lb., 30c; lb., \$1.00.

MARKET GARDENERS' STRAINS

Champion Moss Curled Parsley

PARSNIPS

Magnum Bonum, A very fine and greatly improved strain of Hollow Crown Parsnip, which we can recommend to all marketmen as a money-maker. The roots are smooth, not so long as those of the standard sort, somewhat thicker in diameter and much more easily pulled. A very heavy cropper. Oz., 07c; ¼ lb., 15c; lb., 50c.

Improved Guernsey. An improved strain, which has given general satisfaction. The roots do not grow so long as those of the Hollow Crown, but are of greater diameter and more easily gathered. Of excellent quality. Oz., 07c; ¼ lb., 15c; lb., 50c.

Hollow Crown, or Long Smooth. (Abbot's Improved.) Smooth, large, tender and sugary; one of the best. Our stock is very fine. Oz., 07c; ¼ lb., 15c; lb., 50c.

Vaughan's Marrowfat. A thick shouldered hollow crown variety. Extra fine flavor. Its handsome appearance gives it a ready sale. Oz., 10c; ¼ lb., 20c; lb., 60c.

PEPPER

Vaughan's Magnum Dulce Pepper

Decidedly superior to Chinese Giant or any other variety known to market in size and sweet quality. The result of many years' careful selection by a successful grower. The yield of this variety may be greatly increased by pinching out the first or king blossoms which appear. These king blossoms produce the largest peppers. However, in doing so, they reduce the yield. The flesh runs ½ to ¾ inch thick, and is exceptionally mild and pleasant in flavor. Fifteen fruits to a bushel. Pkt., 15c; oz., 40c; 2 ozs., 75c; ¼ lb., \$1.40; lb., \$5.50.

Vaughan's Improved Sweet Mountain. It is a strong grower, very productive. The peppers when young are of a bright green color, without any shade of purple; when ripe they are of a very beautiful red; the flesh is thick, sweet and mild. They often grow 6 inches long by 4 inches through. Our strain has been selected with great care for over twenty years. ½ oz., 15c; oz., 25c; ¼ lb., 75c; lb., \$2.50.

Ruby King. Grows 4½ to 6 inches long, by 3½ to 4 inches thick. The peppers are bright ruby red; one of the best for stuffed pickles. The mat or walls, is quite crisp and tender. ½ oz., 15c; oz., 25c; ¼ lb., 75c; lb., \$2.50.

Chinese Giant. Double the size of "Ruby King." Not only is it early in ripening and productive for so large a pepper, but its size will cause it to sell most readily. The fruits are of thick blocky form and of glossy scarlet. They grow four or five inches broad at the top, and are of equal length. All uniformly large. The flesh is mild and unusually thick; it makes an excellent salad sliced and served like tomatoes. Pkt., 10c; ½ oz., 20c; oz., 30c; ¼ lb., \$1.00; lb., \$4.00.

Pepper, New Neapolitan. A great market gardeners' variety, two weeks earlier than Bull Nose or Ruby King. It is of good size, mild flavor, and the plants are of good stocky growth. Its great value lies in its prolificacy. The flesh of the fruit is quite thick, and ripens an even bright red. Price, ½ oz., 15c; oz., 25c; ¼ lb., 75c; lb., \$2.50.

Pepper, New Upright Sweet Salad. This pepper grows upright, and not hanging as do other sorts. It is a cross between Chinese Giant and a very mild, sweet variety. Its value to the market gardener is in earliness and its mild flavor, so mild, in fact, that even the seeds may be eaten raw without inconvenience. Fruits are of medium size and are produced in good numbers. The color is a very handsome green, and turns a waxen red when ripe. A fine variety for fancy trade. Pkt., 10c; ½ oz., 25c; oz., 40c; ¼ lb., \$1.00; lb., \$4.00.

VAUGHAN'S TOMATO SEED

Our seed is raised by the most experienced growers, some of whom specialize on particular varieties only. Cheap tomato seed is very dear for the market gardener.

BONE MEAL, Vaughan's Rose Grower

A special brand we have put up for our trade. Free from acid and a superb article. Made from bone accumulated in large slaughter houses, and should not be compared with Bone Meal made from cattle heads and feet gathered on the western prairies. Our "Rose Grower" Bone has been slightly steamed to soften it so it can be ground fine, and is thus quicker in its action, and can be more evenly distributed through the soil. Analysis—Ammonia $4\frac{1}{2}$ to $5\frac{1}{2}$ per cent; total phosphoric acid, 22 to 25 per cent; total bone phosphate, 48 to 54 per cent.

FLORISTS' CLEAN SPHAGNUM

Many of the Sphagnum Moss swamps in the Wisconsin district have been so worked out that the remaining sections contain only old deposits, frequently full of brush, weeds and grass. Our Moss is from one of the largest and cleanest swamps in the Wisconsin cranberry region and the Sphagnum is bright, clean, of new growth, and free from brush or dead moss. Our contract requires the bales to be of the full standard size, which is 40x15x18 inches, solidly packed, and covered with new burlap. In former seasons continued rains have not only filled the swamps with water but prevented prompt drying, and the increased price of burlap added to the cost. During the past season, however, conditions have much improved, moss has been easier to get out although Burlap continues high in price.

PRICES FOR BURLAPPED BALES—each, \$1.00; 6 bales for \$5.50; 12 bales for \$10.50. F. O. B. New York, 50 cents per bale higher.

Transportation charges prepaid to any railroad stations in the United States within 500 miles of Chicago or New York, on orders for "Iron Age" tools, or for seeds and tools amounting to \$7.50.

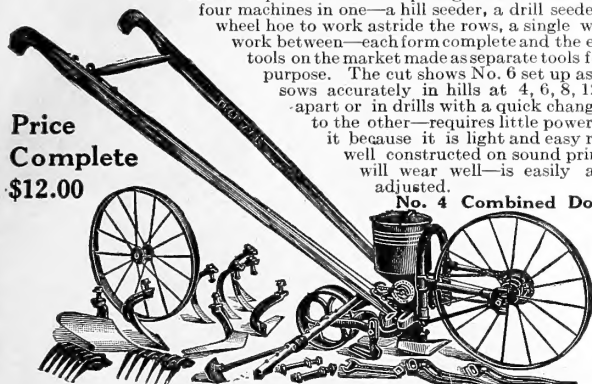

N. B.—(Seeds are **not** prepaid unless so offered on other pages.)

No. 6 Combined Double and Single Wheel Hoe, Hill and Drill Seeder.

The most practical and complete garden tool on the market—four machines in one—a hill seeder, a drill seeder, a double wheel hoe to work astride the rows, a single wheel hoe to work between—each form complete and the equal of any tools on the market made as separate tools for separate purpose. The cut shows No. 6 set up as a seeder—sows accurately in hills at 4, 6, 8, 12 or 24 ins. apart or in drills with a quick change from one to the other—requires little power to operate it because it is light and easy running—is well constructed on sound principles and will wear well—is easily and simply adjusted.

Price Complete \$12.00

No. 4 Combined Double and Single Wheel Hoe, and Drill Seeder is like No. 6 except it sows in drills only and has a different plow. Price \$11.00.

In its Seeder form sows either way, in drills or hills. Has strong hollow steel tube frame, the 16 in. wheel and it is simply and easily changed and adjusted. When wanted as well as Hill and Drill Seeder only, order No. 16. Price \$8.50.

Price Complete \$11.00

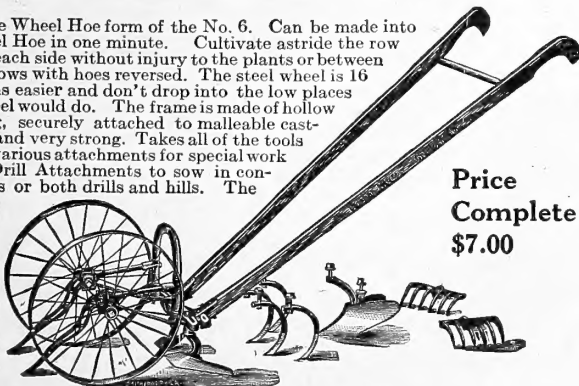

No. 17 Combined Single Wheel Hoe and Drill Seeder is same as No. 15 except that it has no hill dropping device. Price \$10.00.

No. 1 Combined Double and Single Wheel Hoe

This is the Wheel Hoe form of the No. 6. Can be made into Single Wheel Hoe in one minute. Cultivate astride the row close up on each side without injury to the plants or between any width rows with hoes reversed. The steel wheel is 16 in. high, runs easier and don't drop into the low places as a low wheel would do. The frame is made of hollow steel tubing, securely attached to malleable castings—light and very strong. Takes all of the tools shown and various attachments for special work including Drill Attachments to sow in continuous rows or both drills and hills. The latter are \$4.00 and \$5.00 respectively. If this Wheel Hoe is wanted plain with hoes only, order as No. 3. Price, \$4.25.
